SUMMER HOLIDAY EXAM PREP & ACTION PLAN SESSIONS

NO 'NORMAL' LESSONS FROM MONDAY 27TH JULY

PRE-BOOKABLE SESSIONS FROM THIS SCHEDULE ONLY

With the summer holiday rapidly approaching and the new term just round the corner, it is vital to increase the intensity of our prep now and start looking at harder exam papers and how to fill them in correctly; how to approach the questions and answer them quickly and effectively and how to manage time to ensure the greatest number of questions are completed quickly and accurately. If your child attended the May half term sessions, they will already be familiar with the structure of these sessions as we started the easier, multiple choice papers back then with the 'colouring in box' sheets.

Each session is priced at the standard group rate of £25 per 2hour session and will be most productive if your child is exceeding expectations and has successfully completed and understood work set so far, including actively learning and memorising glossaries and vocabulary lists as well as completing extended reading from the given book list. There will be quite a few who are not at this stage and these sessions will highlight what still needs to be learnt and action plans will be completed to ensure they have a clear focus throughout the holidays and for the bonus time we will have in September so that we can continue our prep for the new October dated test.

Please fill in the reservation form and send it together with 50% payment to confirm your booking (and remaining 50% to be paid when sessions start). I will text to confirm classes or advise alternatives.

As before, I am running at least one session in each subject and will advise if I can add anything extra. I always use their normal lesson time for teaching rather than testing which is why we can now focus on the testing element throughout a devoted 2hr subject based session. Papers/questions will be completed in timed 'chunks' and will be marked together afterwards and analysed to find their weaknesses and working method issues. (As this will be online via ZOOM, I will also be sending parents a copy of my fully worked papers/questions for comparisons and ask that student's papers are compared and any issues highlighted asap. Some parents will now need to play a more active role within this prep cycle as students need more than just a few hours with me; they need to be guided whilst at home with someone checking they are staying on track. Extra homework will be given where necessary and children will complete an action plan to document their errors and corrections and as time passes and we progress through the summer, mistakes should become less and less with many able to achieve 100% in reasoning papers as the questions become very repetitive. It is maths that many will struggle with due to having to remember year 5, 6 and 7 topics in a variety of contexts.

Ideally, we need more than a 2hr session to achieve this, but this is just not feasible on-line but it will be the best I can do given the circumstances. Usually students attend back to back classes for 4-6 hours in the holidays, just like summer school, but again, this is not appropriate on-line so instead I am allocating 4 sessions for year 5s across the week, with a day off in-between to catch up with corrections and revision

If you have any questions or queries, please do not hesitate to email or text

Kind regards,

Emmy Hughes
